

Name: Dominique Collins

Date: 05-02-17

For Iteration 5 my team, Twitter-Fingers, finished the documents of Functional, Design Specification, Project Plan, Requirements, and Testing Specification.

I also wrote up the Meeting Minutes for the meetings held on the eleventh of April, twentieth of April, twenty-seventh of April, thirtieth of April, first of May, and second of May.

On the website I tried to get buttons to work and to show information accordingly but Anisha & Julian accomplished that. I made the logo transparent, change font styles, and background color
